Mar-2023 to May-2023

As a Frontend Developer intern at Salesforce, I worked on creating user-friendly web applications using HTML, CSS, and JavaScript. I collaborated with teams to enhance UI/UX and implemented responsive design principles, gaining valuable experience in delivering effective web solutions.

Projects

Folk-webpage

I developed a folk website focused on spiritual content and events using React and GSAP for animations. The site features dynamic, engaging elements that enhance the user experience while showcasing informative articles and event listings, aimed at fostering community engagement and sharing spiritual insights.

Rotaract

I worked on a Rotaract project, creating a platform that facilitates community engagement and volunteer opportunities. Using React, I developed an intuitive user interface that allows users to explore events, sign up for activities, and connect with other members. The project emphasizes collaboration and social impact within the community.
